CCR No. 96-0821	Logged Date 7/17/96	Rev. -	Request Type CCR
Priority Routine <input type="checkbox"/> Urgent <input checked="" type="checkbox"/> Emergency <input type="checkbox"/>	Affected Release		Change Class II
Title Implementation of Richard Meyer's directory structure and Netscape Commerce Server installation & administration on Server Kyoto			
Documents Affected		Source Nos (RID, NCR, etc.) or Tech Reference	
RTM Change <input type="checkbox"/> Start New Baseline <input type="checkbox"/>			
Problem 1) Richard Meyer's directory structure (6/28/96) needs to be installed on server Kyoto. 2) Graham Vowles' licensed Netscape Commerce Server (NCS) needs to be re-installed in the ncs/ directory. 3) Administration of this NCS with low port numbers requires sudoroot privileges.			
Proposed Solution Contact persons: Richard Gorsky, Dietmar Tietz, Doug Heim, Graham Vowles 1) The HTSC Help Desk installs Richard Meyer's directory structure on server Kyoto. 2) The HTSC Help Desk installs Graham Vowles' licensed Netscape Commerce Server in directory /usr/ecs/Rel_A/COTS/ncs/ which is part of the directory structure created in item 1). The following ports are created: 443 and 444 for secure, 808, 809 and 810 for non-secure, and 8080 for admin port (Ouyang Baseline). HTSC sets the UID bit so that users can start/stop servers from command line. HTSC changes /etc/inittab so servers (all ports) will start automatically when machines are rebooted. /cgi-bin/ is remapped to /usr/ecs/Rel_A/CUSTOM/cgi-bin/, document root is set to /usr/ecs/Rel_A/CUSTOM/docs/WWW (Richard Meyer). 3) HTSC creates a webadmin account for Dietmar Tietz with sudoroot permissions to administer all servers on Kyoto.

Office <u>Rel A</u> Office Manager _____ <div style="text-align: right; margin-right: 100px;">Signature</div> <div style="text-align: right;">Date</div>			
Disposition Approved <input type="checkbox"/> Approved w/Comment <input type="checkbox"/> Forward <input type="checkbox"/> Disapproved <input type="checkbox"/>			
Comments: Costs for Security Certificate (from Verisign) will be \$290.-/year for the first server within an organization, additional servers \$95.- each/year. Renewal for all previously certified servers is \$75.- per year. A Security Certificate is necessary for installing/operating the secure server.
